*Act of God*  
By J.B. Strogg

**NEW SCIFI SERIES EXPLORES HUMANITY'S RELATIONSHIP WITH  
EARTH, ARTIFICIAL INTELLIGENCE, AND SPIRITUALITY**

Earth is facing a coming ice age. Humanity has marshalled its technology and resources in an attempt to delay the great cold; a diversion necessary to maintain hope for the people. But some few know the truth. There is little hope left on Earth. But there may still be hope in the stars in the intriguing and enlightening first installment of the *Act of God Series, Book 1: In the Beginning* by J.B. Strogg [Friesen Press, Nov. 12, 2024].

Michael, ward of the worldwide church since childhood, is summoned for humanity's most ambitious and secret undertaking. Shepard the human race to a new home.

Finished construction, 240 million kilometres from the sun, is the Ark. The ship designed to carry one half million souls in suspended animation to a new world.

But the mission of the Ark is more than simply saving the human species. Its creator, the New Unified Church must save the human spirit and accomplish what humanity never attempted; bring together the religions of the world and expunge the ancient hatreds that dominate doctrine.

But the cost to the church will be its very existence. In order to unify, all agree that the Ark must not carry the symbols, books or even the knowledge of any of the old religions. To survive, humanity must lose God and have faith that God will find them in the stars.

Fans of *Ready Player One* and *Tomorrow and Tomorrow and Tomorrow* will become engrossed in ***Book 1: In the Beginning***.

### **ABOUT THE AUTHOR**

A graduate in computer science and electronics, J.B. Strogh has had a successful career in the tech sector. J.B Strogh is interested in writing about the pattern of evolution manifest in both humanity and machine. The series Act of God, books are based in science and contemplate the long history of human spirituality and how the two must some day converge.
